# DIPLAST

## *Celebrating 50 Years*

Greetings from 'DIPLAST GROUP'! We trust all of you are safe and doing well. As all of us are gradually bouncing back from the testing times we have been going through. In the New Normal, we expect a lot of changes. Many new investments will come in housing sector, infrastructure and boost the manufacturing sector as more money has been transferred in by the Government so that our country can become self reliant. We at DIPLAST further like to apprise regarding new products & CSR activity this year.

DIPLAST, an **ISO 9001:2015** certified company, is today recognized as the most reliable manufacturer and supplier of plastic products. Their strength is quality, research & development and revolutionary green products. The Company offers many environment friendly products like Rain Water Harvesting system, hydrotech farming, mobile toilets and dry & wet waste dustbins, compost bins in various sizes. Besides, the Company also intends to go in for all modern techniques for 'Plastics in Agriculture'.

### **ECO FRIENDLY LEAD FREE RIGID PVC PIPES**

DIPLAST has now introduced **LEAD FREE Rigid PVC Pipes**. Earlier we were using Lead Stabilizers in PVC material which have been found to be harmful in water pipes and banned in USA and European countries. These pipes are now made by using Calcium Zinc Stabilizer in a fractional quantity, whereas major raw material is PVC Resin which are environment friendly.

### **CPVC PIPES**

DIPLAST has also started in a big way **CPVC** pipes manufacturing in collaboration with '**Kanika Group**'. These pipes are being manufactured ISI marked as per IS:15778 and have many added advantages over existing GI pipes etc. used for plumbing. They are rust free and can withstand temperature upto 95 degree Celcius. They have been already well accepted for plumbing in all kinds of building and extensively being used. Other products of DIPLAST such as PPR Pipes, Rigid PVC Conduits have been well accepted and being used in buildings for the last 50 years with an excellent performance.

## COMPOST BINS

On World Environment Day, DIPLAST has launched and provided Compost Bins along with addition of Coco peat for its valued customers at highly competitive prices. Use of compost bin will greatly help the society along with Municipal Corporation to get rid of mounds of waste gathered on the outskirts of villages and cities. DIPLAST is also conducting seminars to educate and enlighten people in this regard.

## NEW-21 TANKS

DIPLAST has recently introduced **heavy weight lids of tanks** in their range of **NEW-21** tanks to ensure that the tank lids don't fly away. Moreover, in summers, the water in New-21 tanks will remain at far less temperature than the outside temperature as its walls are insulated.

## RAIN WATER HARVESTING SYSTEM

After many years of research, a successful model of Roof Top RAIN WATER HARVESTING SYSTEM has been developed by DIPLAST Group by making the water suitable for drinking purpose also. Although rain water harvesting is popular across the world, but a special system has been developed with Inverted Conopy for India which is very cost effective and water can be used for bathing, cleaning, washing, toilets and gardening besides drinking and cooking purpose.

## PLANTERS

A variety of planters have been developed which are highly durable to last years & years and with good capacity. These planters can be put inside the house to enhance clean air and beauty inside.

## CORPORATE SOCIAL RESPONSIBILITY

In its efforts towards Corporate Social Responsibility, DIPLAST has held several rallies for Clean City – Green City in Mohali and also developed a Round About. Senior Citizens of Mohali are supported by organizing picnics at their Farm House. Diplast is holding free medical camps and blood donation camps from time to time.

DIPLAST has also adopted Gholu Majra and Dappar villages for spreading awareness regarding all COVID related issues along with Vaccination at its **DIPLAST FARM HOUSE** at DAPPAR. Two camps on dates 8<sup>th</sup> and 14<sup>th</sup> June have been already held and approx. 300 persons vaccinated on each camp.

**DIPLAST wishes to all its clients and friends**

**A HEALTHY YEAR AHEAD**

# OUR NEW TECHNOLOGY

## 1. CPVC PIPES

**DIPLAST** is a potable water distribution system made of chlorinated Polyvinyl Chloride (CPVC) for use single & Multi Family Homes, apartments, high-rises, Hotel/motels and commercial installation. It has a history of superior performance and competitive piping systems.

In a sentence DIPLAST CPVC Pipe is the highest Quality and best valued hot and cold potable water piping system available. DIPLAST has a design registered for alignment on the plastic fittings.

### Features & Benefits of DIPLAST CPVC Piping System :

- Quick, easy & aesthetic installation
- No corrosion, leakage, scaling, pitting
- Tough & reliable
- Freedom from toxicity, odours and tastes
- Cost effective
- Low thermal expansion
- Fire retardant
- Low thermal conductivity
- Proven operational life of minimum 50 years
- Suitable for use up to 93°C
- Being used & trusted across the world for over 5 decades
- Energy saver
- Quick easy & aesthetic installation.

## 2. DIPLAST COMPOST BINS

For turning kitchen waste to organic manure and organic liquid fertilizer.

- New & Improved design
- Tap for utilizing compost Tea
- Holes for Aeration
- Long lasting
- Easy to use
- Hassle Free
- No foul smell
- Attractive colours
- Available in 40, 70, 80, 100, 125 & 250 ltrs.
